

## Series 55

The reliable solution for ships from 20 to 50 m

The Series 55 Navigation lights are applicable for vessels > 20 - < 50 m in length.

The Navigation lights fulfil all requirements of the "International Regulations for Preventing Collisions at Sea 1972 (COLREG)", published by the International Maritime Organization (IMO) and local rules.

The high quality Series 55 with their nonmagnetic and seawater resistant polycarbonate housing are unbreakable and extremely reliable. Even the tungsten bulb with socket BAY 15d can be changed easily.

The application is depending on the [visibility requirements](#).

*This series is not available for the US market.*
